Patons promise no shrinking for a long life

Why knit something beautiful if it's only that way till you've washed it? You give a lot of yourself when you knit. A lot of time and effort and love. So be sure to use Patons quality yarns to avoid disappointment. By carefully following all instructions in your Patons pattern book, you'll be sure every garment you make—knitted or crocheted—will wash without a whisper of shrinking and wear beautifully through a long and lovely life.

Patons Bluebell Crepe—pure joy to knit—a pure wool yarn with a springy twist that gives an immaculate finish. When you knit with **Bluebell Crepe**, you know the garment itself will last, like the style. Patons unique Patonising process sees to that. Gives knitting yarns maximum resistance to shrinkage.

TENSION—13½ stitches to 2 inches.

Needle size depends on your tension which should be 13½ stitches to 2 ins. in width, measured over plain smooth fabric.

SUCCESSFUL RESULTS DEPEND ON CORRECT TENSION!

To knit garments you'll be proud of, always make a Tension Test. Correct tension brings out a further benefit of Patons exclusive Patonising process. You'll find your knitteds have maximum resistance to pilling as well as shrinkage. So you're sure of knitteds looking fresh and new through wash after wash.

Tension Test: Before you start knitting take the yarn and needles specified in the instructions, cast on 20 stitches, work 20 rows in plain smooth fabric. Lightly press work. Check the tension by placing an inch tape across the stitches. Count the exact number of stitches to 2 ins. and compare with the tension given in the instructions. If your tension is too loose, try a size finer needle. If it's too tight, try a size larger needle. If more than one size of needle is recommended in the knitting instructions, and you have altered your needles to correct the tension, corresponding alterations must be made to needles throughout the instructions.
